DON'T FAIL TO SEE EVA RAY

AT THE ORPHEUM

THIS WEEK.

ASK THOSE WHO HAVE SEEN HER.

AMUSEMENTS

Orpheum Plays to Packed Houses.

Miss Eva Ray, who is the brilliant star at the Orpheum this week, is truly a marvel. She has been doing some fine work, and her achievements have been the talk of the town during the past few days. Following are some of the things which Miss Ray has accomplished: She has found a pearl brooch belonging to Mrs. Adams; a string of rosary beads, belonging to Allie Williams; a purse, of Allie Parks; a watch, owned by Clarence Elwoods; a wheel, lost by J. H. Hooton.

She has also located J. Carleton, brother of H. Carleton, in St. Louis; also Frank James, son of H. B. James, who is in Tampa, and many others. Several business men of Mobile are in the city to question Miss Ray on matters of importance. Her work so far has been even beyond expectations, and it has been necessary to secure the offices of the police so far to preserve order among the crowds who throng the front of the theatre.

Bijou Theatre.

The Bijou continues to play to packed houses at each performance. The programme offered this week is exceptionally good, and everyone who has taken in the show speaks highly of each act. There will be an entire change today. Mr. Hermanos, the "strong man," and a rival of Sandow, will present the human see-saw, the most sensational act ever performed on any stage. The other acts on the bill and also the moving pictures will be changed.

"When Knights Were Bold."

When Francis Wilson, in his bathrobe, lies down upon his back couch before the great open fireplace for "forty winks," he little knows that he is to be taken back seven hundred years, to the days of his ancestors. All this happens in the second act of "When Knights Were Bold," the amusing farce by Charles Marlow, which Mr. Wilson is presenting this season. The second act shows Sir Guy acting out his dream as a personage of the past with all the others of the party fitting in as ancestors of themselves. Sir Guy's cousin, Rowena, is wooed by the overture Sir

OWES HER LIFE TO

Lydia E. Pinkham's Vegetable Compound

Vienna, W. Va.—"I feel that I owe the last ten years of my life to Lydia E. Pinkham's Vegetable Compound. Eleven years ago I was a walking shadow. I had been under the doctor's care but got no relief. My husband persuaded me to try Lydia E. Pinkham's Vegetable Compound and it worked like a charm. It relieved all my pains and misery. I advise all suffering women to take Lydia E. Pinkham's Vegetable Compound."—MRS. EMMA WHEATON, Vienna, W. Va.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases of any similar medicine in the country, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every such suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

Sees Mother Grow Young.

"It would be hard to overstate the wonderful change in my mother since she began to use Electric Bitters," writes Mrs. W. L. Gilpatrick of Danforth, Me. "Although past 70 she seems really to be growing young again. She suffered untold misery from dyspepsia for 20 years. At last she could neither eat, drink nor sleep. Doctors gave her up and all remedies failed till Electric Bitters worked such wonders for her health." They invigorate all vital organs, cure Liver and Kidney Troubles, induce sleep, impart strength and appetite. Only 50c at all druggists.

The French "Mrs. Malaprop."

Callino, the French "Mrs. Malaprop," does not amuse so much by the confusion of his words as by the quaintness and unintended plainness of his remarks. He entered the service of a well known doctor, who, after Callino had been buying hay for his horses for awhile, made up his mind that the hay was worthless.

"That is very poor hay that you've been buying," the doctor complained.

"But the horses eat it, sir," said Callino.

"No matter. It's bad hay."

"Yes, sir," said Callino respectfully. "I'll change it. I know you are a much better judge of hay than the horses are!"

One day the bell rang, and Callino came in.

"A patient has arrived, sir," he reported.

"An old patient or a new one?" asked the doctor.

"New one, of course, sir," said Callino. "The old ones never come back!"

Callino admired very much the beautiful teeth of a lady among his master's patients.

"Ah!" he exclaimed. "Her teeth are as fresh and sound and white as a newborn baby's!"

Idiomatic English.

Mrs. Fremont, in a sketch of her father, Senator Benton, tells the following story of the French bishop at St. Louis at the time of the purchase of Louisiana. She says:

It was a point of honor among the older French not to learn English, but the bishop decided that it would be better to acquire it, especially for use from the pulpit. To force himself into the familiar practice of the language he secluded himself for awhile with the family of an American farmer, where he would hear no French. The experiment proved very successful. Soon he had gained a sufficient fluency to deliver a sermon in English. Senator Benton was present when it was to be given, and his feelings may be imagined as the bishop, a refined and polished gentleman, announced:

"My friends, I'm right down glad to see such a smart chance of folks here today."

The Points Were There.

Little Clara's parents often discuss reincarnation, and the small maiden has acquired some of the phraseology.

"Mamma," she said one day, "my little must have been a paper of pins in a previous state of existence."

"Why do you think so?" asked her mother.

"Because I can feel some of them in her toes yet," was the logical reply.

An Iron Tip.

Teacher—Johnny, can you tell me how iron was first discovered?

Johnny—Yes, sir.

Well, just tell the class what your information is on that point."

"I heard pa say yesterday that they smelt it."

A SECRET FOR WOMEN

Tells How Ugly, Deformed Women Become Suburb of Figure.

The treatment consists of applying a powerful, harmless nerve-stimulant direct to the cells of the skin, to be absorbed and utilized to create nourishment of flesh and tissue growth. The most beautiful changes are wrought; ugly, deformed women with scrawny neck, arms and limbs, with no bust development at all visible, are quickly transformed into charming personages with well-rounded arms and neck, full, normal bust of exquisite curve and proportion, and shapely figure so much admired in our great actresses and society leaders, and so attractive to the other sex always.

Obtain the ingredients separately at any good drug store, and mix carefully at home. Get two ounces of glycerine, three ounces of rose-water, one ounce tincture cadomene compound (not cadomene) and five cents' worth of borax. Mix the glycerine with tincture cadomene and let stand two hours; then add rosewater and a teaspoonful of borax. Apply morning and night, rubbing it in thoroughly. Then wash with soap and water, and dry. It is related that one woman developed a figure that won for her a very, very wealthy husband.

ROBINSON POINT.

Special to The Journal.

Robinson Point, Jan. 20.—Smoke, smoke, smoke. The atmosphere is full of smoke. The woods are on fire, the fields being burned over preparatory to ploughing and planting.

The farmers and gardeners are getting ready to commence the new year's work.

The recent improvements including installing a larger engine by the Robinson Point Lumber company, of this place, has added materially to the capacity of this ever busy saw mill plant. During the hard times of last year when so many mills were compelled to shut down, this plant kept running, only stopping a day or two at a time to make necessary repairs.
